[Hiring Manager Name]

[Company Name]

Dear [Hiring Manager Name or "Engineering Team"],

I am writing to express my interest in the [Job Title] position at [Company Name]. I was referred to this role by [Referrer's Name], who currently works as a [Referrer's Title] on your team.

With [Number] years of experience in software engineering, specifically focusing on [Primary Technologies/Stacks], I have a proven track record of building scalable applications in distributed environments. In my previous role at [Previous Company], I [mention a specific achievement or project relevant to the job description].

As a remote engineer, I have mastered the art of asynchronous communication and self-management. I am highly proficient with tools like [Git, Jira, Slack, Docker, etc.] and am comfortable collaborating across time zones to meet sprint goals and maintain high code quality.

I have long admired [Company Name]'s approach to [mention a specific company value, product, or engineering blog post]. I am confident that my technical expertise and experience in remote collaboration would make me a valuable addition to your engineering organization.

Thank you for your time and consideration. I look forward to the possibility of discussing how my background aligns with the needs of your team.

Sincerely,

[Your Signature]
