**RE: Referral for Cloud Infrastructure Engineer - [Referrer Name]**

Dear [Hiring Manager Name],

I am writing to express my interest in the Cloud Infrastructure Engineer position at [Company Name]. I was referred to this opportunity by [Referrer Name], who currently serves as [Referrer's Role] at your organization and spoke highly of the team's commitment to building scalable, resilient cloud solutions.

With [Number] years of experience in cloud architecture and DevOps, I specialize in designing and managing automated environments within [AWS/Azure/GCP]. At my current role with [Current/Previous Company], I successfully [mention a key achievement, e.g., migrated legacy infrastructure to Kubernetes or reduced cloud spend by X%]. My technical background aligns closely with [Company Name]'s focus on [mention a specific technology or goal, e.g., high-availability microservices or CI/CD optimization].

Specifically, my expertise includes:

- Provisioning Infrastructure as Code (IaC) using [Terraform/CloudFormation/Ansible].
- Managing container orchestration through [Kubernetes/Docker/ECS].
- Implementing robust security protocols and monitoring systems via [Prometheus/Grafana/CloudWatch].

I am eager to bring my skills in cloud automation and site reliability to [Company Name]. Thank you for your time and for considering my application through [Referrer Name]'s referral.

Sincerely,

[Your Name]
