Dear [Hiring Manager Name],

I am writing to express my interest in the **DevOps Engineer** position at [Company Name], as referred to me by [Referrer's Name], who currently serves as [Referrer's Job Title] within your [Referrer's Department] team.

Having collaborated with [Referrer's Name] previously, I have followed [Company Name]'s growth and its commitment to [specific company mission or technology stack]. With [Number] years of experience in site reliability and infrastructure automation, I am confident that my background in streamlining CI/CD pipelines and managing cloud-native environments aligns with your team's goals.

In my current role at [Current/Previous Company], I have focused on:

- Designing and maintaining scalable infrastructure using [AWS/Azure/GCP] and IaC tools like [Terraform/CloudFormation].
- Automating deployment workflows that reduced release latency by [X]%.
- Implementing robust monitoring and logging solutions using [Prometheus/ELK Stack/Grafana] to ensure 99.9% uptime.
- Orchestrating containerized applications via Kubernetes to improve resource utilization.

I am particularly impressed by [Company Name]'s recent work in [Specific project or industry move], and I am eager to bring my expertise in [Specific Skill, e.g., DevSecOps or GitOps] to the team. My referral can attest to my technical problem-solving skills and my ability to bridge the gap between development and operations teams.

Thank you for your time and consideration. I look forward to the possibility of discussing how my technical skills can contribute to the continued success of the DevOps team at [Company Name].

Sincerely,

[Your Name]
