**RE: Infrastructure Engineer Application - Referral by [Referrer Name]**

Dear [Hiring Manager Name],

I am writing to express my interest in the Infrastructure Engineer position at [Company Name], as recommended to me by [Referrer Name], who currently serves as [Referrer's Job Title] on your [Department Name] team. Having followed [Company Name]'s recent advancements in [Specific Technology or Project], I am eager to contribute my expertise in scalable systems and automation to your engineering organization.

In my current role at [Current/Previous Company], I have focused on [Key Responsibility, e.g., managing high-availability AWS environments or Kubernetes orchestration]. My background in [Specific Skillset, e.g., Infrastructure as Code (Terraform), CI/CD pipeline optimization, or Site Reliability Engineering] aligns closely with the technical requirements mentioned by [Referrer Name].

Key highlights of my experience include:

- [Achievement 1: e.g., Reduced infrastructure costs by X% through resource optimization.]
- [Achievement 2: e.g., Automated deployment workflows that decreased release time by X hours.]
- [Achievement 3: e.g., Improved system uptime to 99.99% through proactive monitoring and disaster recovery planning.]

I am particularly drawn to [Company Name] because of your commitment to [Specific Company Value or Technical Challenge]. I am confident that my technical proficiency and collaborative approach would make me a valuable addition to the infrastructure team. Thank you for your time and for considering my application through [Referrer Name]'s recommendation.

Sincerely,

[Your Signature/Typed Name]
