Re: Application for Senior Structural Engineer (Referral: [Referrer Name])

Dear [Hiring Manager Name],

I am writing to express my interest in the Senior Structural Engineer position at [Company Name]. I was encouraged to apply for this role by [Referrer Name], who currently serves as [Referrer's Job Title] at your firm and suggested that my background in [Specific Sector, e.g., High-Rise Residential/Industrial] would align well with your upcoming project pipeline.

With [Number] years of experience in structural design and project management, I have successfully led engineering teams through all phases of development, from initial feasibility studies to final site inspections. My expertise includes advanced seismic analysis, steel and reinforced concrete design, and the use of industry-standard software such as [Software 1, e.g., ETABS], [Software 2, e.g., Revit], and [Software 3].

In my most recent role at [Current/Previous Company], I served as the lead engineer for [Notable Project Name], a [Project Value/Scale] development. I was responsible for ensuring structural integrity while optimizing material costs by [Percentage]%, demonstrating my ability to balance technical excellence with budgetary constraints.

I have long admired [Company Name]'s commitment to [Specific Company Value or Recent Project], and I am eager to bring my technical proficiency and leadership skills to your structural department. I look forward to the possibility of discussing how my experience can contribute to the continued success of your team.

Sincerely,
