Re: Application for [Job Title] - [Job ID/Reference Number]

Dear [Dr./Mr./Ms. Surname],

I am writing to express my strong interest in the [Job Title] position at [Company Name], as advertised on [Source]. As a PhD candidate/graduate in [Field of Study] at [University Name], my doctoral research focused on [Brief description of research focus, e.g., molecular mechanisms of protein folding]. I am eager to transition my academic expertise in [Core Technical Skill] and [Core Technical Skill] into the innovative drug discovery pipeline at [Company Name].

During my doctoral training, I developed a robust methodology for [Specific Technical Accomplishment]. This work resulted in [Number] peer-reviewed publications and required extensive proficiency in [Key Instrumentation/Software/Assays]. Beyond the bench, I managed collaborative projects involving [Cross-functional teams/Collaborators], ensuring that research milestones were met within strict budgetary and temporal constraints—skills I recognize as vital for the fast-paced pharmaceutical industry.

What draws me specifically to [Company Name] is your recent advancement in [Specific Company Achievement or Therapeutic Area]. My background in [Relevant Specialty] aligns closely with your department's focus on [Specific Departmental Goal]. I am particularly adept at translating complex biological data into actionable insights, and I am confident that my analytical rigor will contribute to the successful development of your [Current Pipeline Project or Technology].

I have attached my CV, which provides further detail on my technical repertoire and academic honors. I look forward to the possibility of discussing how my research background and technical proficiency can support the R&D objectives of [Company Name].

Thank you for your time and consideration.

Sincerely,

[Your Signature]
