Dear [Hiring Manager Name or "Engineering Hiring Team"],

I am writing to express my interest in the **[Job Title]** position at **[Company Name]**, as advertised on **[Platform/Referral source]**. As a software engineer with [Number] years of experience specializing in **[Primary Tech Stack, e.g., React, Go, or Distributed Systems]**, I have spent the last [Number] years working effectively in fully distributed environments. I am eager to bring my technical expertise and remote collaboration skills to your team.

In my recent role at **[Previous/Current Company]**, I was responsible for **[Major project or responsibility]**. I successfully navigated the challenges of asynchronous communication by **[mention a remote-specific skill, e.g., maintaining rigorous documentation or proactive status reporting]**. One of my key achievements involved **[specific technical achievement with a metric, e.g., reducing latency by 20% or scaling a database for 100k users]**, which required deep proficiency in **[specific tool or language]**.

Working remotely has allowed me to hone a high degree of self-motivation and mastery over digital collaboration tools such as [Jira/Slack/GitHub/Notion]. I understand that success in a remote engineering role at **[Company Name]** depends not just on writing clean, scalable code, but also on active participation in code reviews, clear architectural discussions, and maintaining a high level of accountability without direct supervision.

I am particularly drawn to **[Company Name]** because of **[mention a specific reason, e.g., the company's mission, a specific technical challenge, or their remote-first culture]**. I am confident that my background in **[Specialty]** and my proven track record in remote productivity make me an ideal fit for your engineering team.

Thank you for your time and consideration. I look forward to the possibility of discussing how my skills can contribute to the continued success of **[Company Name]**.

Sincerely,

[Your Name]
