**RE: Forensic Civil/Structural Engineer Position - [Job Reference Number]**

Dear [Hiring Manager Name],

I am writing to express my interest in the Forensic Civil/Structural Engineer position at [Firm Name]. With a background in structural analysis, [Number] years of experience in the [Field/Industry], and my Professional Engineering (P.E.) license, I am prepared to contribute to your firm's expert witness and failure analysis operations. Throughout my career, I have specialized in identifying the root causes of structural distress and failures. My technical expertise includes:

- Conducting detailed site investigations and distress mapping for residential and commercial structures.
- Utilizing [Software, e.g., RISA-3D, SAP2000, or Bluebeam] for non-destructive testing and structural modeling.
- Analyzing building code compliance and original design documents to determine liability and causation.
- Preparing comprehensive forensic reports for insurance adjusters and legal counsel.

I am particularly drawn to [Firm Name] because of your reputation for [specific mention of a firm project or value]. I am confident that my methodical approach to data collection and my ability to communicate complex engineering findings to non-technical stakeholders will be an asset to your forensic team. Thank you for your time and consideration. I look forward to the possibility of discussing how my investigative skills and structural engineering experience can support the goals of [Firm Name].

Sincerely,

[Your Signature]
