RE: Structural Steel Fabrication Engineer - [Job Reference Number]

Dear [Mr./Ms./Mx. Last Name],

I am writing to formally express my interest in the Structural Steel Fabrication Engineer position at [Company Name], as advertised on [Platform where you found the ad]. With a strong background in structural engineering and extensive hands-on experience in steel fabrication processes, I am confident in my ability to contribute to the technical excellence and operational efficiency of your production team.

In my previous role at [Previous Company Name], I specialized in translating complex architectural blueprints into precise shop drawings and fabrication sequences. My expertise encompasses material selection, CNC programming, welding metallurgy, and ensuring strict adherence to AISC and AWS standards. I have a proven track record of optimizing fabrication workflows to reduce material waste and meet rigorous project deadlines without compromising structural integrity.

I am particularly drawn to [Company Name] because of your reputation for delivering high-quality steel structures for [mention a specific project or industry sector]. I am eager to apply my proficiency in [mention software like AutoCAD, Tekla, or Revit] and my knowledge of automated fabrication technologies to support your upcoming projects.

Thank you for considering my application. I have attached my resume for your review and look forward to the possibility of discussing how my technical skills in steel fabrication can benefit [Company Name].

Sincerely,

[Your Signature (if sending by mail)]
