[Company Name]
[Company Address]

Dear [Hiring Manager Name or "Hiring Committee"],

I am writing to express my enthusiastic interest in the [Job Title] position at [Company Name], as advertised on [Where you saw the job]. As a recent graduate with a [Degree Name] in [Major] from [University Name], I have developed a strong foundation in server-side logic, database management, and API development that aligns with your engineering team's goals.

During my academic career and [mention Internship or significant Project], I gained hands-on experience with [Language 1, e.g., Java/Python] and [Language 2, e.g., Go/Node.js]. One of my key achievements includes building [Project Name], where I implemented [specific feature or architecture, e.g., a RESTful API using Express or a microservice in Spring Boot]. This project required me to optimize [specific metric, e.g., database query performance or latency], resulting in a [percentage or specific improvement].

I am particularly drawn to [Company Name] because of your commitment to [mention a company value, specific product, or tech stack]. I am eager to apply my knowledge of [Specific Skill, e.g., SQL/NoSQL, Docker, or AWS] to help your team build scalable and efficient backend systems while continuing to learn from your experienced engineers.

Thank you for your time and for considering my application. I have attached my resume for your review and look forward to the possibility of discussing how my technical background and passion for backend development can contribute to the continued success of [Company Name].

Sincerely,

[Your Signature if sending by mail]
