[Hiring Manager Name]

[Company Name]

[Company Address]

Dear [Hiring Manager Name/Hiring Team],

I am writing to express my enthusiastic interest in the [Job Title] position at [Company Name], as advertised on [Where you saw the post]. As a recent graduate with a background in [Your Degree] and a strong foundation in SQL, Python, and cloud infrastructure, I am eager to contribute to [Company Name]'s data engineering initiatives and help optimize your data pipelines.

During my academic projects and [mention Internship or Certification], I developed a keen interest in building scalable ETL processes. I recently completed a project where I [briefly describe a data project, e.g., "automated a data pipeline using Apache Airflow and AWS S3"]. This experience allowed me to refine my skills in data modeling, schema design, and ensuring data integrity—skills I am ready to apply to your current technical challenges.

I am particularly drawn to [Company Name] because of [mention a specific company project, technology stack, or value]. I am a fast learner and a proactive problem-solver, committed to producing clean, efficient code and collaborating with cross-functional teams to turn raw data into actionable insights.

Thank you for your time and consideration. I look forward to the possibility of discussing how my technical skills and passion for data engineering can support the goals of the [Department Name] team at [Company Name].

Sincerely,

[Your Name]
