[Title]

[Company Name]

[Company Address]

Dear [Hiring Manager Name],

I am writing to express my enthusiastic interest in the **Entry Level Cloud Software Engineer** position at [Company Name], as advertised on [Platform/Company Website]. Having recently completed my [Degree Name, e.g., B.S. in Computer Science] from [University Name], I am eager to apply my foundational knowledge of distributed systems, cloud architecture, and automation to help [Company Name] scale its digital infrastructure.

During my academic career and [Internship/Personal Projects], I developed a strong proficiency in [Programming Languages, e.g., Python, Go, or Java] and gained hands-on experience with [Cloud Provider, e.g., AWS, Azure, or GCP]. A key highlight of my experience includes [Briefly describe a specific project, e.g., deploying a containerized microservice using Docker and Kubernetes], which resulted in [mention a quantitative result or specific learning outcome]. This experience solidified my understanding of CI/CD pipelines, Infrastructure as Code (IaC) via [Tool, e.g., Terraform/CloudFormation], and the importance of high availability in cloud environments.

I am particularly drawn to [Company Name] because of your recent work in [mention a specific company product, initiative, or tech stack]. I am a quick learner who thrives in collaborative environments, and I am eager to contribute to your engineering team's success while further refining my skills in cloud-native development.

Thank you for your time and consideration. I have attached my resume for your review and look forward to the possibility of discussing how my background and technical skills can contribute to the growth of [Company Name].

Sincerely,

[Your Signature (if sending by mail)]
