[Hiring Manager Name]

[Title]

[Company Name]

[Company Address]

Dear [Hiring Manager Name], I am writing to express my interest in the **Entry Level Python Software Engineer** position at [Company Name], as advertised on [Where you saw the job post]. As a recent [Degree Name] graduate from [University Name] with a strong foundation in Python development and backend architecture, I am eager to contribute to [Company Name]'s engineering team. During my academic career and [Internship/Personal Projects], I have developed a deep proficiency in Python and its ecosystem. Specifically, I have:

- Built [Project Name], a [Brief Description] using **[Django/Flask/FastAPI]**.
- Implemented RESTful APIs and integrated **[PostgreSQL/MySQL/MongoDB]** databases.
- Applied **Object-Oriented Programming (OOP)** principles to write clean, maintainable, and testable code.
- Utilized **Git** for version control and collaborated in Agile environments.

I am particularly drawn to [Company Name] because of your recent work in [Specific Company Achievement or Industry]. I am a quick learner who thrives in problem-solving environments, and I am committed to continuous growth within the Python community. Thank you for your time and consideration. I have attached my resume and look forward to the possibility of discussing how my technical skills and enthusiasm for software development can benefit your team. Sincerely,

[Your Name]
