[Startup Name]

[Startup Address/Remote]

Dear [Hiring Manager Name],

I am writing to express my interest in the **[Job Title]** position at **[Startup Name]**. Having followed [Startup Name]'s recent [mention a specific news item, product launch, or funding round], I am inspired by your mission to [mention startup's core mission/problem they solve]. As a high-growth-minded engineer, I am eager to contribute to your fast-paced development cycle.

During my time at [University Name or Coding Bootcamp], I specialized in [Primary Language/Framework]. My most significant project involved building **[Project Name]**, where I solved [specific technical challenge] by implementing [specific technology]. This experience taught me how to move quickly from ideation to deployment—a skill set I know is vital for an early-stage team.

What excites me most about joining a startup like [Startup Name] is the opportunity to wear multiple hats. I am not just looking to write code; I am looking to understand the product-market fit and help scale [specific feature or service]. I am a self-starter who thrives in ambiguity and is comfortable with the "ship fast, iterate often" philosophy.

I have attached my resume and links to my recent repositories. I would welcome the opportunity to discuss how my technical skills and passion for [Industry, e.g., Fintech/SaaS/HealthTech] can help [Startup Name] reach its next milestone.

Best regards,
