[Healthcare Organization/Health-Tech Company Name]
[Company Address]

Dear [Hiring Manager Name], I am writing to express my interest in the Junior UX Designer position at [Company Name]. As a designer passionate about improving patient outcomes and streamlining clinical workflows, I am eager to apply my skills in human-centered design to help [Company Name] solve complex healthcare challenges such as [mention a specific challenge like accessibility, data visualization, or patient engagement]. During my [previous experience/education], I developed a strong foundation in the UX process, specifically focused on [mention specific skill like empathetic user research or prototyping]. In my project [Project Name], I addressed [specific health-related problem] by conducting research with [specific user group, e.g., clinicians or patients]. This resulted in [mention a metric or positive design outcome]. I am deeply familiar with the importance of HIPAA compliance, accessibility (WCAG), and the ethical considerations required when designing for sensitive medical data. I am particularly drawn to [Company Name] because of your recent work in [mention a specific company product or initiative]. I am eager to bring my ability to simplify complex information architectures and my commitment to evidence-based design to your creative team. Thank you for your time and for considering my application. I look forward to the possibility of discussing how my design approach aligns with the mission of [Company Name]. Sincerely,
