[Company Name]

[Company Address]

Dear [Hiring Manager Name],

I am writing to express my interest in the **Junior UX Designer** position at [Company Name]. As a designer deeply invested in bridge-building between user needs and functional interfaces, I have followed [Company Name]'s recent work on [mention a specific project or company value], and I am eager to contribute my skills in user research and high-fidelity prototyping to your design team.

During my recent [internship/bootcamp/degree program], I developed a strong foundation in the end-to-end design process. I specialize in transforming complex wireframes into interactive, high-fidelity prototypes using tools such as **[Figma/Adobe XD/Protopie]**. My approach focuses on validating motion patterns and micro-interactions early in the lifecycle to reduce development friction and ensure a seamless handoff.

One of my key achievements includes [briefly describe a specific project]. In this project, I utilized iterative prototyping to:

- Conduct usability testing on interactive flows, leading to a [X%] improvement in task completion rates.
- Implement design system components that maintained visual consistency across platforms.
- Communicate complex logic to stakeholders through functional simulations rather than static screens.

I am particularly drawn to [Company Name] because of your commitment to [mention a specific aspect of their UX culture]. I am confident that my technical proficiency in prototyping and my empathetic approach to user-centric design will allow me to provide immediate value to your current projects.

Thank you for your time and consideration. I look forward to the possibility of discussing how my design background and prototyping expertise can support the goals of [Company Name].

Sincerely,

[Your Name]
