[Hiring Manager Name]
[Title, e.g., Director of Infrastructure]
[Company Name]
[Company Address]

Dear *[Hiring Manager Name or "Hiring Team"]*,

I am writing to express my interest in the Site Reliability Engineering Manager position at *[Company Name]*. With a strong background in distributed systems, automation, and technical leadership, I have spent the last *[Number]* years scaling engineering teams and improving system availability for high-traffic platforms.

In my current role at *[Current/Previous Company]*, I lead a team of *[Number]* SREs. My focus has been on bridging the gap between software development and operations through the implementation of SLOs/SLIs, robust incident response frameworks, and "Toil" reduction initiatives. One of my key achievements includes *[Major Achievement, e.g., reducing infrastructure costs by 30% or increasing uptime to 99.99%]*.

My approach to management centers on fostering a culture of psychological safety, blameless post-mortems, and continuous professional growth. I am particularly drawn to *[Company Name]* because of your recent focus on *[Specific Technology, e.g., migrating to Kubernetes / scaling global edge locations]* and your commitment to operational excellence.

I am confident that my technical expertise and leadership philosophy align with the goals of your engineering organization. I look forward to the possibility of discussing how I can help *[Company Name]* maintain its reputation for reliability and performance.

Thank you for your time and consideration.

Sincerely,

[Your Name]
