Dear [Hiring Manager Name],

I am writing to express my interest in the **[Job Title]** position at **[Company Name]**. As a dedicated security researcher with a focus on ethical hacking and vulnerability assessment, I have spent my career identifying critical flaws before they can be exploited by malicious actors.

In my previous role at **[Previous Company/Project]**, I successfully identified and helped remediate **[Number]** high-impact vulnerabilities, including **[mention specific types like SQLi, XSS, or broken authentication]**. My approach combines automated scanning with deep-dive manual penetration testing to ensure comprehensive coverage of an organization's attack surface.

My core technical competencies include:

- Advanced Penetration Testing (Web, Network, and Cloud)
- Security Code Auditing and Static/Dynamic Analysis
- Incident Response and Threat Hunting
- Proficiency in [Tools: Burp Suite, Metasploit, Nmap, Python, etc.]

I am particularly drawn to **[Company Name]** because of your commitment to **[mention a specific company project, product, or security value]**. I am eager to bring my proactive mindset and technical expertise to your security team to help fortify your infrastructure against emerging threats.

Thank you for your time and consideration. I look forward to discussing how my skills in offensive security can contribute to the defensive posture of **[Company Name]**.

Best regards,

**[Your Name]**
