Dear [Hiring Manager Name/Search Committee],

I am writing to express my enthusiastic interest in the **[Job Title]** position at **[Organization Name]**, as advertised on **[Platform/Source]**. As a recent graduate with a **[Degree Name, e.g., Master of Public Health]** specializing in Epidemiology from **[University Name]**, I am eager to apply my quantitative skills and passion for population health to support your team's research and surveillance initiatives.

During my academic training, I developed a strong foundation in biostatistical methods, infectious disease surveillance, and study design. For my [Thesis/Capstone Project], I utilized **[Statistical Software, e.g., SAS, R, or STATA]** to analyze **[Specific Data Set or Public Health Issue]**. This experience sharpened my ability to clean complex datasets, perform regression modeling, and interpret findings to inform evidence-based public health interventions.

In addition to my technical proficiency, my internship with **[Internship Organization]** allowed me to collaborate with multidisciplinary teams to **[Briefly mention a key achievement, e.g., assist in outbreak investigations or draft community health reports]**. I am particularly drawn to **[Organization Name]** because of your commitment to **[Mention a specific project, mission, or value of the employer]**, and I am confident that my analytical rigor and attention to detail make me a strong fit for this role.

I look forward to the possibility of discussing how my background and technical skills can contribute to the continued success of the **[Specific Department/Team Name]**. Thank you for your time and consideration.

Sincerely,

[Your Signature (if sending by mail)]
