[Company Name]

[Company Address]

Dear [Hiring Manager Name or "Hiring Team"],

I am writing to express my strong interest in the **DevOps Software Engineer** position at [Company Name]. With [Number] years of experience in automating infrastructure, streamlining CI/CD pipelines, and enhancing system reliability, I am eager to bring my technical expertise to your engineering team.

In my previous role at [Current/Previous Company], I focused on bridging the gap between development and operations. I successfully [mention a specific achievement, e.g., migrated legacy workloads to AWS/Azure using Terraform, or reduced deployment time by X%]. My proficiency with tools such as [list key tools, e.g., Kubernetes, Docker, Jenkins, Ansible] allows me to build scalable, resilient architectures that support rapid software delivery.

What excites me about [Company Name] is your commitment to [mention a specific company value or project]. I am particularly impressed by your approach to [mention a specific technology the company uses]. I am confident that my background in [mention a specific skill, e.g., Infrastructure as Code or Site Reliability Engineering] will allow me to contribute immediately to your production stability and developer productivity.

Thank you for your time and consideration. I look forward to the possibility of discussing how my experience in DevOps and software engineering can support the goals of [Company Name].

Sincerely,

[Your Full Name]
