[Hiring Manager Name]

[Company Name]

[Company Address]

Dear [Hiring Manager Name],

I am writing to express my interest in the Site Reliability Engineer position at [Company Name]. With a background in [Software Engineering/Systems Administration] and a focus on building scalable, fault-tolerant infrastructure, I have spent the last [Number] years optimizing system performance and automating operational workflows.

At [Current/Previous Company], I managed [Cloud Provider: AWS/GCP/Azure] environments and achieved [Specific Metric, e.g., 99.99% uptime] by implementing [Specific Tool or Methodology]. My core technical expertise includes:

- **Infrastructure as Code:** [Terraform/CloudFormation/Ansible]
- **Containerization & Orchestration:** [Kubernetes/Docker/Nomad]
- **Observability:** [Prometheus/Grafana/ELK Stack/Datadog]
- **CI/CD & Automation:** [Jenkins/GitHub Actions/GitLab CI]

I am particularly drawn to [Company Name] because of your commitment to [Specific Company Initiative or Engineering Culture]. I am passionate about reducing toil through [Python/Go/Bash] scripting and applying "Error Budget" frameworks to balance feature velocity with system stability.

Thank you for your time and consideration. I look forward to discussing how my experience in distributed systems and incident management can contribute to the reliability of [Company Name]'s platforms.

Sincerely,

[Your Name]
